C. I oppose Rock Island Clean Line from building a powerline. The reason is no powerline should ever go through themiddle of someones property,they should follow propertylines even if they have to add 100 miles more lines to the project. Another reason is The RICL project is in one field, when we plant we turn around directly under the powerline, when we raise up with our planter, we are about 25' foot in the air, this puts us only 8-10 feet away from the powerline. I don't feel safe with my life being that close with steel to a high voltage line.
