Iowa Utilities Board:

On behalf of the Lyon County Board of Supervisors I am registering our opposition to the granting of eminent domain for the Summit Carbon Solutions carbon capture project proposed to be constructed in and through Lyon County, Iowa. It is the belief of the Lyon County Board of Supervisors that each land owner should have the right to decide if they want the carbon capture pipelines on their property.

Thank you for considering our opposition to granting eminent domain for the Summit Carbon Solutions to the carbon capture project proposed to be constructed in and through Lyon County, Iowa.

Sincerely,

Josh Feucht, Chairman
Lyon County Board of Supervisors
