Iowa Utilities Board
1375 E Court Avenue
Des Moines, Iowa 50319

Geri D. Huser, Chair
Richard W. Losier, Jr, Board Member
Joshua J. Byrnes, Board Member

The Poweshiek County Board of Supervisors have heard from many of the landowners who live in the proposed Navigator Pipeline area and some who live in small towns that would be affected. Each and every one is against the pipeline going thru their land and under their rivers.

Reasons to deny this permit:

1. Lack of EMS (fire and ambulance) to respond. Our hazmat comes from Waterloo so local volunteers need to wait until hazmat arrives. There is a lack of people to respond.
2. Damage to farm ground and tile which lowers CSR rating and less income for farmers.
3. Loss of ability for property owners to build a house or building over or near the pipeline area creating a possible loss of economic development.
4. Some land has been in the family for 100-150 years. Why can a Texas based company or private individual be able to take the land when it is not for the public good?
5. Please help us support our Poweshiek County landowners by voting against the use of eminent domain.
6. Please say no to Navigator CO2 pipeline permits, a Texas based company. This is privately owned and not a public utility. Let’s support our own residents and our future generations.
BOARD OF SUPERVISORS

Diana Dawley
Chairman

Merle Doty
Member

Jason Roudabush
Vice-Chairman

The Poweshiek County Board of Supervisors support the Poweshiek County residents and taxpayers in their efforts to resist the pipeline proposed and ask you as the Iowa Utilities Board to deny all permits and deny eminent domain in this case.

Thank you for your consideration in this matter.

Diana Dawley, Chairman

Jason Roudabush, Vice-Chairman

Merle Doty, Member
