

Program or Initiative	Clarification/Modification to EEP	Included in Board Order (Yes) or (No)	Location in Board Order	Additional Action Required by Board (Yes) or (No)	Type of Recommendation	Product Manager	Status	2020 - 1st Qtr Update	2020 - 2nd Qtr Update	2020 - 3rd Qtr Update	2020 - 4th Qtr Update	2021 - 1st Qtr Update
4(D)1, Nonresidential Appliance Recycling	Eliminate program from EEP and reallocate budgeted dollars (\$54,000 per year) to the Supplemental Weatherization Program, including insulation and weatherization measures.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Stacy Christoffersen and Erin Rasmussen	Complete					
4(D)1, Residential Equipment	Eliminate Air-Source Heat Pump measure from EEP and reallocate budgeted dollars to the Supplemental Weatherization Program, including insulation and weatherization measures. Approximately \$325,000 annually for 5 years.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Amber Moser, Dave McCamant and Erin Rasmussen	Complete					
4(D)1, Residential Low Income	Modify the EEP to use some (ICARE) dollars for weatherization services and to offer a Supplemental Weatherization Measure to provide weatherization rebates for insulation/infiltration at levels set for years 2014-2017. (50% of dollars collected above \$250k)	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	Complete					
4(D)1, Residential Low Income	MidAmerican will pursue initiatives intended to result in an increase in the level of ICARE funds collected from customers and applied to supplemental weatherization each year. MidAmerican agrees to allocate 50% of all ICARE funds collection above \$250,000 to supplemental weatherization activities to be completed in MidAmerican's low income customer's homes by third-parties such as a Green Iowa Americorp and Habitat for Humanity.	Yes	Non-Unanimous Issues	No	Marketing and education	Stacy Christoffersen	In Process	MidAmerican employee fundraiser was held in February for ICARE.			A bill message and an article in the customer newsletter was included in November bills.	Exploring adding contribution amount on residential rebate applications.
8(A)1,2,&3, Income Qualified Multifamily	MidAmerican will expand the eligibility requirements for participation in the Income Qualified Multifamily program to include buildings that are 10 years old or older and developed under Section 8 of the U.S. Housing Act of 1937 or Low-Income Housing Tax Credit under the Tax Reform Act of 1986, plus buildings with the Housing and Urban Development's Sectional Housing Types of Section 202 and Public Housing, and the U.S. Department of Agriculture's Section 515 Rural Rental Housing, to participate in its Low Income Multifamily program. All other affordable housing buildings not mentioned previously will be reviewed on a case-by-case basis to determine eligibility to participate in this	Yes	Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	Complete					
10, Municipal Benchmarking	MidAmerican agrees to work, in good faith, with municipalities on benchmarking initiatives including how individual and aggregated usage data is provided.	Yes	Unanimous Issues	No	Marketing and education	Amber Moser	In Process	MidAmerican continues to participate in the benchmarking ordinance with the Des Moines Building Performance committee to provide business owners the requested information.	MidAmerican continues to participate in the benchmarking ordinance with the Des Moines Building Performance committee to provide business owners the requested information.	MidAmerican continues to participate in the benchmarking ordinance with the Des Moines Building Performance committee to provide business owners the requested information.	MidAmerican continues to participate in the benchmarking ordinance with the Des Moines Building Performance committee to provide business owners the requested information.	MidAmerican continues to participate in the benchmarking ordinance with the Des Moines Building Performance committee to provide business owners the requested information.
3, 12 & 2, Cost Reduction, Collaboration and Coordination	MidAmerican agrees to seek efficiencies and cost reduction opportunities in energy efficiency and demand response, including administrative costs, and agrees that all cost efficiencies and savings will be tracked and incorporated back into energy efficiency programs (not necessarily the same program) to either conduct other initiatives or to increase the amount of dollars available for incentives and services provided to customers.	Yes	Unanimous Issues	No	Program Design & Implementation	Dave McCamant and Tina Yoder	In Process	MidAmerican continues to monitor spending of all programs against budget to ensure dollars are reallocated as needed.	MidAmerican continues to monitor spending of all programs against budget to ensure dollars are reallocated as needed.	MidAmerican continues to monitor spending of all programs against budget to ensure dollars are reallocated as needed.	MidAmerican continues to monitor spending of all programs against budget to ensure dollars are reallocated as needed.	
3, 12 & 2, Cost Reduction, Collaboration and Coordination	MidAmerican will consider and pursue all reasonable opportunities for cost savings opportunities, including but not limited to: reductions in personnel that are charged to programs, streamlined assessment of potential and plan development costs, elimination of unnecessary or high cost promotions, and the elimination of sponsorship advertising.	Yes			Program Design & Implementation	Dave McCamant and Tina Yoder	In Process				See Exhibit H - Admin. Cost Reductions	
3, 12 & 2, Cost Reduction, Collaboration and Coordination	MidAmerican agrees that administrative costs should be reduced to the maximum amount possible, and that, over the course of the five-year Plan, administrative costs shall not exceed 25% of the energy efficiency and demand response Plan budgets.	Yes	Unanimous Issues	No	Program Design & Implementation	Dave McCamant	In Process	MidAmerican is tracking its administrative costs as a percent of budget and overall spending to meet this goal. Annual reports will include information on administrative cost reductions realized. Daily reports are made available to product managers to track ratios at the program level.	MidAmerican is tracking its administrative costs as a percent of budget and overall spending to meet this goal. Annual reports will include information on administrative cost reductions realized. Daily reports are made available to product managers to track ratios at the program level.	MidAmerican is tracking its administrative costs as a percent of budget and overall spending to meet this goal. Annual reports will include information on administrative cost reductions realized. Daily reports are made available to product managers to track ratios at the program level.	MidAmerican is tracking its administrative costs as a percent of budget and overall spending to meet this goal. Annual reports will include information on administrative cost reductions realized. Daily reports are made available to product managers to track ratios at the program level.	

Settlement Agreement

Program or Initiative	Clarification/Modification to EEP	Included in Board Order (Yes) or (No)	Location in Board Order	Additional Action Required by Board (Yes) or (No)	Type of Recommendation	Product Manager	Status	2020 - 1st Qtr Update	2020 - 2nd Qtr Update	2020 - 3rd Qtr Update	2020 - 4th Qtr Update	2021 - 1st Qtr Update
3, 12 & 2, Cost Reduction, Collaboration and Coordination	MidAmerican agrees to collaborate with the OCA, other parties, and other utilities to better define cost categories to increase uniformity and understanding of reporting by all utilities.	Yes	Unanimous Issues	No	TRM Development	Tina Yoder	In Process				This topic discussed during MidAmerican's collaboration meeting held during the fall of 2020. Additional discussion to be held during 2021 collaborative meeting to be held in August/Sept.	
3, 12 & 2, Cost Reduction, Collaboration and Coordination	MidAmerican will implement the Technical Resource Manual ("TRM") according to the approved User Guide (Vol. 1).	Yes	Unanimous Issues	No	Data Tracking and QA/QC	Erin Rasmussen and Scott deBlois	Complete	TRM has been implemented. 2020 impacts will be calculated using TRM v.4				TRM has been implemented. 2021 impacts will be calculated using TRM v.5
3, 12 & 2, Cost Reduction, Collaboration and Coordination	Starting in 2020, the parties will convene approximately three collaboration meetings each year at mutually agreeable times to discuss: low-income supplemental weatherization, pilot programs (upstream/midstream equipment programs and demand response), uniform cost definitions, and allocation of realized cost savings. EM&V collaboration will begin in 2019.	Yes	Unanimous Issues	No	Collaboration Meetings	Tina Yoder and Erin Rasmussen	In Process	MidAmerican is planning for collaboration meeting in 2020. Anticipate first collaboration for upstream/midstream programs in late 2nd Quarter. Due to pandemic, collaboratives will be held virtually. The first general collaborative meeting was held on March 24, 2020.	The 1st Midstream collaborative took place on June 23, 2020	The 2nd Midstream collaborative took place in September 2020. The second general collaboration meeting was held Sept. 23.	The 3rd Midstream collaborative is anticipated to be held in late Q1 2021. In 2020, there were 2 Midstream collaboratives and 1 collaboration to discuss future topics.	The 3rd Midstream will take place in early Q2 2021; Other collaboratives that are planned are: Fuel switching/non-wires alternatives (Aug 2021); Smart tstat/load management (Oct 2021); Uniform cost definitions (early 2022)
Evaluation, Measurement and Verification	MidAmerican agrees to incorporate and complete EM&V according to Application Exhibit 8 included in its Plan.	Yes	Referenced Throughout Order	No	Evaluation	Erin Rasmussen	In Process	MidAmerican is on track to meet the EM&V completion goals according to Application Exhibit 8.	MidAmerican is on track to meet the EM&V completion goals according to Application Exhibit 8.	MidAmerican is on track to meet the EM&V completion goals according to Application Exhibit 8.	MidAmerican is on track to meet the EM&V completion goals according to Application Exhibit 8.	MidAmerican is on track to meet the EM&V completion goals according to Application Exhibit 8.
Evaluation, Measurement and Verification	EM&V for new programs and measures (e.g., advanced thermostats and Home Energy Reports) will be completed as early as possible when appropriate levels of data are available for the EM&V process.	Yes	Referenced Throughout Order	No	Evaluation	Erin Rasmussen	In Process	MidAmerican will ensure new programs will be completed as early as possible.	The first round of EM&V began in Q2 with Residential Equipment (including smart tstats), Nonresidential Equipment, Residential Assessment (EE Kits), and CNC	Draft reports for the first round of EM&V will be released in Q4	Draft reports for the first round of EM&V released in October 2020. Second round of EM&V begins with Residential Behavioral (Home Energy Reports) and Residential Low Income; Final reports for CNC, Residential Equipment, Nonresidential Equipment and Residential Assessment were released in December 2020	Evaluation work is underway for Residential Low Income and Residential Behavioral programs
9(B), Annual Reporting	MidAmerican's annual reports will include a narrative explanation of program performance, and updates on pilots and research and development projects.	Yes	Unanimous Issues	Yes	Reporting	Tina Yoder	In Process				Included	
9(B), Annual Reporting	MidAmerican will include an affidavit with its annual report, but will retain flexibility in determining what is included in the annual report and in what detail, while striving for transparency in its reporting.	Yes	Unanimous Issues	No	Reporting	Tina Yoder	In Process				Included	
9(B), Annual Reporting	The parties agree that the current January 30 annual filing of new program changes for the current year is useful and reasonable; therefore, MidAmerican will continue to make this filing.	Yes	Unanimous Issues	Yes	Reporting	Tina Yoder	In Process				Completed	
8(B), Appliance Recycling	MidAmerican will continue to conduct cross-promotional activities during the scheduling and pick-up of appliances. This may include the use of emails and leave behind information related to other available programs.	Yes	Unanimous Issues	No	Program Design & Implementation	Stacy Christoffersen	In Process					Exploring updating online scheduling tool confirmation screen to direct customers to additional rebate programs.
8(B), Appliance Recycling	MidAmerican will allow master-metered multifamily complexes to participate in the residential program since appliances are coming from the individual units.	Yes	Unanimous Issues	No	Program Design & Implementation	Stacy Christoffersen	Complete					
11, Upstream Retail Lighting	MidAmerican will not continue the upstream retail lighting program. The market for LED lighting has significantly matured in recent years and the rate of free-ridership is likely to be high and increase going forward.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	Complete					
4(F), Additional Upstream/Midstream programs	MidAmerican will participate in collaboration to design upstream/midstream programs for lighting and/or other technologies.	Yes	Non-Unanimous Issues	Yes	Reporting	Erin Rasmussen	In Process	MidAmerican is planning for collaboration meeting in 2020. Anticipate first collaboration for upstream/midstream programs in late 2nd Quarter. Due to pandemic, collaboratives will be held virtually	The 1st Midstream collaborative took place on June 23, 2020	The 2nd Midstream collaborative took place in September 2020	The 3rd Midstream collaborative is anticipated to be held in late Q1 2021	The 3rd Midstream collaborative is anticipated to be held in early Q2 2021
13, Trade Ally Portal	MidAmerican will continue to provide a dedicated portal for TAs; however, it may no longer be separated from MidAmerican's own website pages.	Yes	Unanimous Issues	No	Trade Ally Outreach	Amber Moser and Stacy Christoffersen	In Process	MidAmerican continues to provide a separate portal dedicated to Trade Allies, which is accessible from MidAmerican's website.	MidAmerican continues to provide a separate portal dedicated to Trade Allies, which is accessible from MidAmerican's website.	MidAmerican continues to provide a separate portal dedicated to Trade Allies, which is accessible from MidAmerican's website.	MidAmerican continues to provide a separate portal dedicated to Trade Allies.	MidAmerican continues to provide a separate portal dedicated to Trade Allies.

Program or Initiative	Clarification/Modification to EEP	Included in Board Order (Yes) or (No)	Location in Board Order	Additional Action Required by Board (Yes) or (No)	Type of Recommendation	Product Manager	Status	2020 - 1st Qtr Update	2020 - 2nd Qtr Update	2020 - 3rd Qtr Update	2020 - 4th Qtr Update	2021 - 1st Qtr Update
13, Trade Ally Portal	MidAmerican will not require that all TAs be a TA Partner or require interactions with the TA portal on a regular basis. Ambassadors are a vital communication tool for TAs and will continue to educate TAs about where to find information on the portal and MidAmerican's website.	Yes	Unanimous Issues	No	Trade Ally Outreach	Amber Moser and Stacy Christoffersen	In Process	MidAmerican's Trade Ally Ambassadors continue to provide outreach and support to all trade allies, which includes a dedicated help line. In addition, information specific to Trade Allies is provided on MidAmerican's website through the Trade Ally Central SharePoint site.	MidAmerican's Trade Ally Ambassadors continue to provide outreach and support to all trade allies, which includes a dedicated help line. In addition, information specific to Trade Allies is provided on MidAmerican's website through the Trade Ally Central SharePoint site. In addition, information specific to Trade Allies is provided on MidAmerican's website through the Trade Ally Central SharePoint site.	MidAmerican's Trade Ally Ambassadors continue to provide outreach and support to all trade allies, which includes a dedicated help line. In addition, information specific to Trade Allies is provided on MidAmerican's website through the Trade Ally Central SharePoint site.
4(A) 1&2, Residential Equipment	Although MidAmerican feels air-source heat pumps ("ASHP") are a cost-effective measure and sound technology, MidAmerican agrees that further analysis is warranted and therefore agrees to eliminate (at this time) the residential ASHP measure until this analysis has been completed and the TRM has fully addressed the fuel-switching issue, and may reinstate the measure if it is consistent with the goals of the Plan.	Yes	Unanimous Issues	No	Program Design & Implementation	Amber Moser and Dave McCamant	Complete					
4(A) 1&2, Residential Equipment	MidAmerican will include ASHP in its planned HVAC study to gain more insight from TAs about the use of this technology in Iowa, functionality in cold climates, and costs.	Yes	Unanimous Issues	No	Market Research	Tina Yoder, Erin Rasmussen and Dave McCamant	Complete					
4(A) 1&2, Residential Equipment	If ASHP is reintroduced during the Plan cycle, funding from administrative cost reductions or underutilized programs will be used in order to maintain overall budgets and low income funding.	Yes	Unanimous Issues	No	Program Design & Implementation	Team	Complete					
4(A) 1&2, Residential Equipment	MidAmerican will add additional fields to its application to have both the customer and installing TAs certify the new home complies with appropriate building/energy codes.	Yes	Unanimous Issues	No	Program Design & Implementation	Dave McCamant and Stacy Christoffersen	Complete					
4(B), Residential Assessment	MidAmerican will not continue to offer in-home assessments. However, MidAmerican will support residential customers' adoption of energy efficiency through its energy efficiency call center, through outreach to customers participating in the online assessment, and through educational materials. MidAmerican will provide interested customers a list of contractors that are able to provide in-home assessments for a fee.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Amber Moser and Erin Rasmussen	In Process	The energy efficiency call center continued to assist customers with the online assessment. The online assessment/kit program was promoted in the February 2020 emailed residential newsletter and participation saw a significant increase from an average of 900 completions per month to over 8,000 completions in February	The energy efficiency call center continued to assist customers with the online assessment. The online assessment/kit program was promoted in the June 2020 emailed newsletter and participation increased from an average of 900 completions per month to over 4,000 completions in June.	The energy efficiency call center continued to assist customers with the online assessment.	The energy efficiency call center assisted 133 customers with the online assessment in 2020. There were over 20,000 online assessment completions in 2020	The energy efficiency call center continued to assist customers with the online assessment. In February 2021, the online assessment/kit program was promoted in both the emailed residential newsletter and the mailed paper residential newsletter. The program saw over 8,900 completions in February.
4(B), Residential Assessment	MidAmerican will use similar eligibility guidelines for kits as it did for onsite assessments; however, should customers request additional parts of a kit due to failure, damage, new features, etc., MidAmerican will provide them to the requesting customer.	Yes	Non-Unanimous Issues	No	Evaluation	Erin Rasmussen	In Process					
4(B), Residential Assessment	MidAmerican will use the TRM for determining savings as indicated for kits; but will conduct a follow-up survey and billing analysis after installation and during EM&V to validate or inform TRM assumptions.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	In Process	MidAmerican is using the TRM to calculate kit savings and includes a survey with every kit.	MidAmerican is using the TRM to calculate kit savings and includes a survey with every kit. EM&V report of Residential Assessment will include information to be shared with TRM committee	MidAmerican is using the TRM to calculate kit savings and includes a survey with every kit. EM&V report of Residential Assessment will include information to be shared with TRM committee	MidAmerican is using the TRM to calculate kit savings and includes a survey with every kit. The Residential Assessment EM&V report was released in December 2020 and the survey data has been shared with the TRM committee for updates to version 6

Program or Initiative	Clarification/Modification to EEP	Included in Board Order (Yes) or (No)	Location in Board Order	Additional Action Required by Board (Yes) or (No)	Type of Recommendation	Product Manager	Status	2020 - 1st Qtr Update	2020 - 2nd Qtr Update	2020 - 3rd Qtr Update	2020 - 4th Qtr Update	2021 - 1st Qtr Update
4(B), Residential Assessment	At the present time, there is no integration or link between the online assessment tool and EEMIS which allows for MidAmerican to identify what measures were recommended during the online assessment and which measures were installed and rebated after completion. MidAmerican has issued a Request for Proposal ("RFP") to integrate the calculation of conversion rates for rebated measures for customers that actually sign-in to the online tool through their MidAmerican bill account and not as a guest user provided that the integration can be done at a reasonable cost.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	In Process	MidAmerican continues to work with the program implementer on a solution	MidAmerican continues to work with the program implementer on a solution	MidAmerican continues to work with the program implementer on a solution	811 customers that completed the online assessment also participated in another residential program in 2020	Conversion rates will be reported in Q4 of each year.
4(B), Residential Assessment	The RFP further indicates that the contractor will need to provide information about the recommendations provided to customers to assist MidAmerican with conducting follow-up and promotional activities with customers for measures recommended during the online assessment. MidAmerican understands the importance of ensuring the online assessment tool provides similar information to customers as the advisors did when conducting an onsite assessment and helps to engage customers in taking steps to act on the recommendations. Through the RFP processes, MidAmerican expects to find a tool that is customer-friendly, provides personalized recommendations, helps customers to get started on recommendations, tracks their progress, and allows MidAmerican to conduct follow-up and promotional activities on a regular basis.	Yes	Non-Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	In Process	The program implementer chosen for the online assessment offers a segmentation tool which allows MidAmerican to do more customized promotion.	The program implementer chosen for the online assessment offers a segmentation tool which allows MidAmerican to do more customized promotion.	The program implementer chosen for the online assessment offers a segmentation tool which allows MidAmerican to do more customized promotion.	The program implementer chosen for the online assessment offers a segmentation tool which allows MidAmerican to do more customized promotion.	In 2021, MidAmerican will embed the Oracle tool into its website so that the customer can more easily access the information (including tips) each time they log in to their My Account page. This is expected to be completed in Q2 2021.
6(A)1, Nonresidential Equipment	MidAmerican will continue to use its annual review process and revisions to the TRM to determine what changes may be necessary for the next year of the Plan. Each year, MidAmerican reviews current measures to identify changes and custom projects to determine if new prescriptive measures are warranted. MidAmerican review can include all measures deemed cost-effective and emerging technologies for inclusion in future Plan years.	Yes	Unanimous Issues	No	Program Design & Implementation	Amber Moser and Dave McCamant	In Process	MidAmerican continues to participate in the Technical Reference Manual Oversight committee and Technical Advisory Committee. In the fourth quarter, MidAmerican will investigate changes that may be necessary to the 2021 plan year.	MidAmerican continues to participate in the Technical Reference Manual Oversight committee and Technical Advisory Committee. In the fourth quarter, MidAmerican will investigate changes that may be necessary to the 2021 plan year.	MidAmerican continues to participate in the Technical Reference Manual Oversight committee and Technical Advisory Committee. In the fourth quarter, MidAmerican will investigate changes that may be necessary to the 2021 plan year.	MidAmerican continues to participate in the Technical Reference Manual Oversight committee and Technical Advisory Committee. MidAmerican continues to collaborate with the Advisory Committee to investigate changes that may be necessary.
6(C)Commercial New Construction	MidAmerican plans to provide a high level of natural gas modeling with all projects where natural gas is incorporated into the project. However, MidAmerican will not provide design assistance fees or incentives for natural gas measures included in new construction. New buildings will be required to meet relevant code.	Yes	Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	In Process			53 customers were assisted with gas modeling between 1/1/2020-9/30/2020	A total of 80 customers were assisted with gas modeling in 2020	
14, Key Account Manager Recognition Program	MidAmerican will continue its non-incentive KAM recognition program during the Plan which includes all Key Account personnel—KAMs and Business Account Managers.	Yes	Unanimous Issues	No	Marketing and education	Amber Moser	In Process	MidAmerican will continue presenting the Kam awared, during the first quarter of each year, to the Key Account leadership team.	MidAmerican will continue presenting the Kam awared, during the first quarter of each year, to the Key Account leadership team.	MidAmerican will continue presenting the Kam awared, during the first quarter of each year, to the Key Account leadership team.	MidAmerican will continue presenting the Kam awared, during the first quarter of each year, to the Key Account leadership team.	MidAmerican will continue presenting the Kam awared, during the first quarter of each year, to the Key Account leadership team.
6, Program Cost Caps	MidAmerican agrees to distribute any remaining funding within each year of the Plan, subject to the following protocol: <input type="checkbox"/> MidAmerican will move any remaining funds among programs to cover demands within customer class and fuel type; then <input type="checkbox"/> MidAmerican will review and fund any projects that were pre-approved in a Plan year, but have been denied based on program funding limits; then <input type="checkbox"/> MidAmerican will make available any remaining funding to capped projects that were preapproved and received incentives that would otherwise have been larger but for the project or customer caps while maintaining all other caps and/or eligibility requirements.	Yes	Unanimous Issues	No	Caps	Tina Yoder	In Process				Being followed throughout each year.	

Settlement Agreement

Program or Initiative	Clarification/Modification to EEP	Included in Board Order (Yes) or (No)	Location in Board Order	Additional Action Required by Board (Yes) or (No)	Type of Recommendation	Product Manager	Status	2020 - 1st Qtr Update	2020 - 2nd Qtr Update	2020 - 3rd Qtr Update	2020 - 4th Qtr Update	2021 - 1st Qtr Update
6. Program Cost Caps	MidAmerican agrees to process completed applications and preapprovals within four weeks assuming all supporting documentation is provided at the time of submittal.	Yes	Unanimous Issues	No	Rebate Processing	Amber Moser and Scott deBlois	In Process	MidAmerican achieved the annual Key Performance Indicator to process 90 percent of rebate applications within four weeks. For those projects that were not processed in four weeks, MidAmerican will investigate to determine if any process and procedures can be put in place to increase the percentage of projects completed in four weeks.	MidAmerican achieved the annual Key Performance Indicator to process 90 percent of rebate applications within four weeks. For those projects that were not processed in four weeks, MidAmerican will investigate to determine if any process and procedures can be put in place to increase the percentage of projects completed in four weeks.	MidAmerican achieved the annual Key Performance Indicator to process 90 percent of rebate applications within four weeks. For those projects that were not processed in four weeks, MidAmerican will investigate to determine if any process and procedures can be put in place to increase the percentage of projects completed in four weeks.	MidAmerican achieved the annual Key Performance Indicator to process 90 percent of rebate applications within four weeks. For those projects that were not processed in four weeks, MidAmerican will investigate to determine if any process and procedures can be put in place to increase the percentage of projects completed in four weeks.	2021 Key Performance Indicator - process 92 percent of rebate applications within two weeks. In the first two months in 2021, MidAmerican processed 96 percent of rebate applications within two weeks. For those projects that were not processed in two weeks, MidAmerican will investigate to determine if any process and procedures can be put in place to increase the percentage of projects completed in two weeks.
6. Program Cost Caps	MidAmerican will facilitate POET's participation in the TRM so that it can present its recommendation to use energy intensity to evaluate savings from energy efficiency improvements.	Yes	Unanimous Issues	No	TRM Participation	Tina Yoder and Erin Rasmussen	In Process	Inclusion of POET in TRM meeting determined by VEIC to be inappropriate. MidAmerican will meet with POET in 2021 to discuss how the use of energy intensity to evaluate savings from energy efficiency improvement may be able to be incorporated in custom projects.				
4(C).Behavioral Program Frequency	MidAmerican reduced the frequency of home energy reports to reach the same number of customers with fewer home energy reports. Additionally, MidAmerican reduced the frequency of reports as part of its persistence case study and will generate a white paper detailing the results. MidAmerican is currently in its second year of this persistence case study and anticipates it may continue for two additional years during the Plan.	Yes	Unanimous Issues	No	Reporting	Erin Rasmussen	In Process	Results were shared via memo			The persistence case study will be included in the Residential Behavioral EM&V	The persistence case study will be included in the Residential Behavioral EM&V which is currently underway.
4(C).Behavioral Program Frequency	MidAmerican has received proposals from vendors for its Behavioral program included in its Plan and no proposals indicated that home energy reports can be provided at \$1.00 or less. MidAmerican will reevaluate the program design once the persistence case study ends.	Yes	Unanimous Issues	No	Program Design & Implementation	Erin Rasmussen	Complete					
Communication with OCA and Board	MidAmerican, in recognition of a Board order directed at IPL requiring them to file any change of status for its programs that result from budget constraints, will communicate regularly with the OCA and the Board when programs hit 50%, 75% and 85% or greater of budget about what actions may occur.	No	N/A	No	Additional Voluntary Action	Dave McCamant and Team	In Process	At the end of 1st quarter, no programs were over 50% of budget.	At the end of 2nd quarter, Trees Electric and Gas were over 50% of budget, but this was in line with expectations based on the timing of grants. Res equipment gas spending was over 65% of budget. MidAmerican reviewed the program and allocated additional funding from other residential gas programs. Nonresidential gas was almost at 50% of budget, but this was considered to be on track and as expected.	At the end of 3rd quarter, Trees Electric and Gas were over 50% of budget, but this was in line with expectations based on the timing of grants. Res Education, Res Equipment and Res Assessment electric were all over 50% of budget. These run-rates are considered to be on track and not an issue. Likewise, Nonres equipment electric and commercial new construction were also over 50% of budget, but this level of spending is on track and not an issue of concern. Finally, Res equipment gas is at 104 percent of budget but underspending on other residential gas programs is allowing the program to continue to operate. We are watching residential gas spending closely to allow the program continued operation. Nonres equipment gas is approaching 60% of budget and this is not an issue.
