Lawrence SpottedBird
349 Meskwaki Road
Tama, IA 52339

Dear Larence SpottedBird,

LTD Broadband was recently selected in the Federal Communications Commision's Rural Digital Opportunity Fund (RDOF) Auction to build fiber to the home. Part of the area we were awarded to bring fiber to the home was part of the Meskwaki Nation tribal land.

I previously reached out to Mike Denbow to discuss how to handle tribal permitting, but he did not provide a mechanism to do so. The Iowa Utilities Board ("IUB") has required us to provide you with a copy of our IUB application to expand Eligible Telecommunications Carrier designation, which will provide additional information.

We remain very committed to bringing fiber to the home and if you would like to futher conversations and speak about permitting and how to make that happen we'd love to talk.

Sincerely,

A solid black rectangular box used to redact the signature of Corey Hauer.
