Re: Petition for Renewal of a Pipeline Permit in Docket No.P-0831

Dear Ms. Lynch-Butcher:

The petition for permit and accompanying exhibits filed by MidAmerican Energy Company (MidAmerican) in the above-referenced docket have been reviewed and are ready for the Official Notice to be published.

Attached is the Official Notice for the above-referenced docket. The notice should be published once each week for two consecutive weeks in newspapers of general circulation in Dubuque, Jackson, Clinton, and Scott Counties, Iowa. If an objection is filed within 20 days of the second publication of the notice, the matter will be set for hearing.

Additionally, it is suggested that you read the route description to ascertain that it clearly and completely describes the pipeline route and read the proof prior to publication to eliminate potential errors. An error in a published notice may necessitate republication.

Upon final publication, please file with the Board an affidavit of publication. If a hearing is not required, a renewal permit will be issued upon filing of the proof of publication.

Please file any additional questions you may have in the IUB's electronic filing system under this docket number.

Thank you,

/s/ Alek Milewski
