Re:

Alliant Energy Billings to their customers

IUB please consider,

You have granted Alliant Energy a 9% rate of return on investment.

The Alliant Energy is active in the liberal, socialistic, and green political group.

Please insure the company's financial accounting places the costs for this activity on the stock holder and not the rate payer.

Windmills on private land pay fees to the land owners. The electricity is transported on private power lines with a fee. A retired fossil power plant requires about 3 times the kWh rating in wind power to fill the grid. Solar operations contain carcinogenic chemicals and require chemical (battery) storage.

The stock holders have allowed the company to move in this direction and should pay the cost.

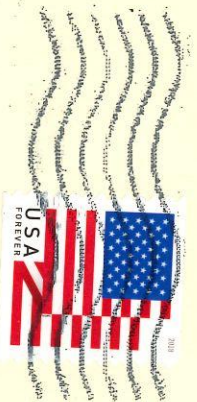

The New York Stock Exchange has removed Alliant Energy from their listings! They know!
