

**STATE OF IOWA
DEPARTMENT OF COMMERCE
IOWA UTILITIES BOARD**

IN RE:

INVESTIGATION INTO A
COMPREHENSIVE STATEWIDE PLAN
FOR IOWA'S TRANSMISSION GRID OF
THE FUTURE

DOCKET NO. INU-2021-0001

NOTICE OF ATTENDANCE AT WORKSHOP

On July 2, 2021, the Iowa Utilities Board (“Board”) issued an Order setting an August 30, 2021 workshop for all interested persons to discuss plans for Iowa’s transmission grid of the future. On August 25, 2021, the Board issued an agenda for the workshop and requested that Iowa transmission owners intending to participate in the workshop file a list of individuals planning to attend.

Though the Iowa Association of Municipal Utilities (“IAMU”) is not a transmission owner, various member utilities are either full or part owners in transmission infrastructure. In addition, other municipal members are entirely dependent on the transmission facilities of larger transmission utilities. As transmission issues are of particular interest to all of Iowa’s municipal electric utilities, IAMU intends to attend the Board’s workshop.

In response to the Board’s request, IAMU hereby submits the following list of attendants for the August 30, 2021 workshop:

I. In-Person

Alex Cutchey,
Director of Government Affairs, IAMU

II. By Webinar

Ryan Streck,
Director of Utility Services Delivery, Muscatine Power and Water

Ken Kagy
Principal Transmission Engineer, Cedar Falls Utilities

Additional municipal representatives may also monitor the Board's webinar.

Respectfully submitted,

By: /s/ Alexander J. Cutchey
