Re: Compliance and Informational Filing: Program Changes to Energy Efficiency Plan (2019-2023)
Docket No. EEP-2018-0002

Dear Iowa Utilities Board:

Pursuant to the Settlement Agreement in this Docket, as modified and approved by the Iowa Utilities Board's February 18, 2019 "Final Order," MidAmerican Energy Company ("MidAmerican") submits Attachment A, which outlines its Key Changes from the 2021 Energy Efficiency Programs.

MidAmerican presented the changes outlined in Attachment A at the stakeholder collaboration meeting held on December 10, 2021. The Key Changes reflect the program name or measure name and program changes for 2022 compared to 2021 program offerings. The changes generally ensure that the program offerings are refined and improved to reflect adjustments to the changing needs of customers and changes in the building codes, among other things. In addition to the program change form, MidAmerican has included the program reference sheets for residential, nonresidential, and small business express programs.

Please contact me if you have any questions or need any additional information. Thank you.

Sincerely,

/s/ Andrew L. Magner
