In re: MidAmerican Energy Company 2019-2023 Energy Efficiency Plan - EM&V Update  
Docket No. EEP-2018-0002

Ladies and Gentlemen:

As part of MidAmerican Energy Company's ("MidAmerican") 2019-2023 Energy Efficiency Plan, approved by the Iowa Utilities Board ("Board") in Docket No. EEP-2018-0002, MidAmerican offers its Evaluation, Monitoring, and Verification ("EM&V") reports regarding its energy efficiency programs.

A third-party evaluator conducted the EM&V process. MidAmerican consulted with other energy efficiency program stakeholders, including the Office of Consumer Advocate. To ensure transparency, TetraTech created these reports and released them to all parties simultaneously and then sent edits and questions from the stakeholders to MidAmerican. MidAmerican reviewed the stakeholder comments and amended the final reports as necessary.

Please let me know if you have any questions.

Sincerely,

*/s/ Andrew Magner*
