

Iowa 2022 Energy Efficiency Program Updates
Effective Jan. 1, 2022

2021 Exhibit K
2022 Program Changes
EEP-2018-0002

Program	Project/Equipment	Qualification Update/Change	Rebate Amount	Description of update and/or decision factors for update
Nonresidential Programs:				
Nonresidential Energy Solutions	Custom project cap and customer incentive cap	Increased custom project cap from \$100,000 to \$200,000 and suspended the \$250,000 customer incentive cap	N/A	Changes made to replenish project pipelines and encourage customer participation

In 2022, at the customer's discretion, MidAmerican's implementation contractors and qualified service providers will complete assessments, non-emergency service/installation work and verification work in homes and businesses. MidAmerican and its contractors will continue to follow guidelines established to help both MidAmerican contractors and customers stay safe and healthy, including the use of proper PPE such as facemask and gloves and social distancing when required.
