July 22, 2022

To Whom it might Concern,

The City of Palmer and concerned landowners, taxpayers, citizens, would like to voice their concern on the hazardous liquid pipeline, which is planned to go through or near our land. The pipeline present valid concerns to our public safety, expenses, and responsibilities to the city , as well as damage to our county roads, among other concerns.

Pocahontas County and The City of Palmer recently put in a drainage tile for the city and surrounding properties and have concerns what this pipeline might do to our drainage tile. Also, the concern of a leak, and being so close to a town.

Please take this into consideration when planning the pipeline route.

Sincerely,

Robert Rosenboom, Mayor
