Submitted to the Iowa Utilities Board

August 03, 2022 01:18 PM CDT

Objection to be filed in Docket Nos.:

- HLP-2021-0003 (*Navigator Heartland Greenway LLC*; Petition for Hazardous Liquid Pipeline Permit)

My objection is in the application name: Petition for Hazardous Liquid Pipeline Permit. The name says it all. Iowa citizens will be exposed to hundreds of miles of hazardous liquid in pipelines that could leak or explode. Secondly, I fear that the company's request to access land for their project through eminent domain will set a precedent for the next BTO (big time operator) who wants to use public monies for private gain and access land that the owner is not willing to allow.
