Submitted to the Iowa Utilities Board

August 13, 2022 09:36 PM CDT

Objection to be filed in Docket Nos.:

- HLP-2021-0003 (*Navigator Heartland Greenway LLC*; Petition for Hazardous Liquid Pipeline Permit)

We are contacting the Utilities Board to officially file an objection to the Navigator Heartland Greenway hazardous pipeline. We received a Certified letter notifying us that our property north of Manchester Iowa is at risk for being affected by the right-of-way. We are strongly opposed to use of eminent domain as a means to this corporate entity's profit. There would be no recovering the conservation work we've invested in the property over the last 23 years. We do not want the pipeline on our property.
