Des Moines, IA 50319-0069

In re: Iowa Code § 478.16(3) Incumbent Transmission Owner Notice of Intent to Construct Transmission

Dear Iowa Utilities Board members,

MidAmerican Energy Company ("MidAmerican"), ITC Midwest, LLC ("ITC Midwest") and Cedar Falls Utilities ("CFU"), pursuant to Iowa Code § 478.16(3) and 199 IAC 11.14(3), respectfully submit this notice of intent to construct, own, and maintain transmission lines to the Iowa Utilities Board ("Board"). On July 25, 2022, the Midcontinent Independent System Operator, Inc. ("MISO"), a federally registered planning authority, approved the MISO Transmission Expansion Plan 2021 ("MTEP21") Addendum: Long Range Transmission Planning ("LRTP") Tranche 1 Portfolio, which includes projects designated as LRTP-7 (Webster-Franklin-Marshalltown-Morgan Valley), LRTP-8 (Beverly-Sub 92), LRTP-9 (Orient-Denny-Fairport), LRTP-12 (Madison-Ottumwa-Skunk River) and LRTP-13 (Skunk River-Ipava) which are located in whole or in part in the State of Iowa.

MidAmerican, ITC Midwest and CFU offer notice of their intent to jointly construct, own, and operate the Iowa LRTP projects as indicated on the attached table.

MidAmerican and ITC Midwest expect to make the appropriate regulatory filings for the Board's review and approval of the projects as the projects develop. Specifically, MidAmerican and ITC Midwest will file the necessary Iowa Code chapter 478 electric transmission franchise petitions and exhibits, including requests for informational meeting dates, as MidAmerican and ITC Midwest move forward with their development process.

If you have any questions or need additional information, please contact MidAmerican, ITC Midwest or CFU through their listed representatives.

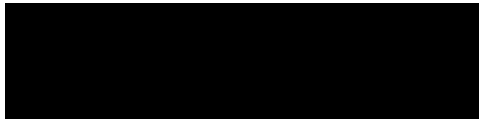

Sincerely,

/s/ Andrew L. Magner
