Re: Compliance and Informational Filing: Revised Program Changes to Energy Efficiency Plan (2019-2023) Docket No. EEP-2018-0002

Ladies and Gentlemen:

Pursuant to the Settlement Agreement in Docket No. EEP-2018-0002, as modified and approved by the Iowa Utilities Board's February 18, 2019 "Final Order," MidAmerican Energy Company ("MidAmerican") submits Revised Attachment A, which outlines reintroduction of residential ductless mini-split equipment rebates effective September 15, 2020.

MidAmerican previously submitted Key Changes from the 2020 Energy Efficiency Programs for calendar year 2020 on January 24, 2020, and April 23, 2020. The Revised Attachment A includes the reintroduction of new rebates for residential ductless mini-split equipment, as contemplated in the Settlement Agreement.

MidAmerican discussed the changes outlined in Revised Attachment A with the Office of Consumer Advocate ("OCA") and currently understands that the OCA has no objection to the proposed changes.

Please contact me if you have any questions or need any additional information. Thank you.

Sincerely,

/s/ Andrew Magner
