Subject: New Load Calculator 2018-2019 for Net Metering Pilot Tariff - Iowa

Dear distributed electric generation dealers and installers:

**** THIS MESSAGE APPLIES TO IOWA INTERCONNECTIONS ONLY ****

Please note that in accordance with the Net Metering Pilot Tariff in Iowa, the load calculations are changing with the recently approved annual filing with the Iowa Utilities Board.
Class Annual Load Factors* will now be as follows for 2018-2019:

Non-Coincident Demand		
Customer Class	Class Annual Load Factor	Load Limit (net metering at retail rate)
Residential	17%	5.15 kW
General Service	25%	10.78 kW
Large General Service	51%	448.92 kW

We understand that some customers may have been quoted on the previous calculations, so any Iowa interconnection requests received by May 3rd, 2018 by 11:59pm will utilize the 2017-2018 calculations.

Effective May 4th, 2018 all interconnection applications received for Iowa Customers will use the 2018-2019 calculations as stated above.

Please use the new calculator attached to ensure the customer is sizing their system accurately.

You can find the calculator attached to this email and is also available on our website: www.alliantenergy.com/sellmypower

If there are any questions, please contact us at 1-800-972-5325 or email SellMyPower@AlliantEnergy.com. Specialists are available Monday-Friday, 8am-4:30pm

Sincerely,
Devin Wever | Customer Owned Generation Specialist
